B) READING COMPREHENSION (16 Marks)

Read the following passage, then answer the questions below:

Millions of years ago, the world was very warm. Rain fell on the land all the time. In that warm world lived strange animals called dinosaurs. They were the biggest animals that ever lived on Earth. In those days there were no people. So, no man has ever seen **them**. Scientists have found their bones under the ground. They said that some dinosaurs lived near water and some were on dry land. They found out that some of them ate only plants, just as horses and cows, others ate animals as lions and tigers. Some dinosaurs were bigger than any animal we have ever seen.

The most dangerous dinosaur was called Tyrannosaurus. It ate animals and was very big and tall. It was as tall as a big building, and could look over a top of a tall tree. Its teeth were as long as a man's hand. After millions of years, something strange happened. They suddenly began to **vanish** and pass away.
